ABOUT ME

Ambitious and passionate architect, recent graduate of the Ion Mincu University of Architecture and Urbanism in Bucharest, nominated for Best Diploma 2024. With almost three years of experience at renowned architecture firms in Romania, I have developed a solid foundation in residential projects and a deep understanding of the entire architectural process. While I consider two of my key strengths to be my time efficiency and my ability to learn quickly, I make sure neither affects the quality of my work. I am dedicated, persistent, and always looking to expand my knowledge. Having recently relocated to Strasbourg, I am eager to integrate into a dynamic professional environment and to further elevate my career.

Oct 2022

HOBBIES

Photography, Hiking, Snow Sports

PERSONAL DETAILS

Date of birth
06 Dec 1999

Nationality
Romanian

WORK EXPERIENCE

Architect, ADN Architecture Office, Bucharest
Aug 2024 - Present

Upon graduating, I transitioned into a full-time role at ADN Architecture Office, where I immersed myself in a collaborative environment focused on innovative design solutions. This experience not only enhanced my technical skills, but also deepened my understanding of project management and client communication, preparing me for the complexities of the architectural field. Furthermore, I had the opportunity to work first-hand with partners, to actively engage in discussions with clients and also to contribute to decision-making processes.

The main tasks I was assigned with consisted of:

- BIM modeling and modeling of assembly solutions;
- creation of technical plans for residential buildings - detailed plans, masonry, partitions, ceilings, compositions;
- creation of technical drawings and execution details for various projects;
- creation of "theme notebook" for residential apartments - detailing and coordination of installations (electrical, water supply and sanitary);
- creating a complete package for the building permit;
- creation of conceptual schemes and pre-feasibility studies for various projects;
- realization of volumetric and solar studies;
- 3D modeling in preparation for image rendering;
- image drafts and rendering;
- processing plans for delivery;
- creation of drawings and schemes for architectural competitions.

Architecture Intern, ADN Architecture Office, Bucharest
Mar 2023 - May 2024

Following my first internship, I continued my professional journey at ADN Architecture Office, where I gained valuable experience working on residential projects and collaborating with a talented team across different stages of architectural design. During my time there, I had the opportunity to engage in various tasks, from initial discussions and developing architectural concepts to designing and implementing execution details for ongoing construction sites. I was fortunate enough to have exposure and be involved from the very beginning in all phases of a project.

Architecture Intern, Cumulus Architecture, Bucharest
Feb 2022 - Feb 2023

During my fourth year of university, I completed an internship at Cumulus Architecture, where I developed strong foundational skills in architectural design while also learning to collaborate effectively within a team. This experience allowed me to take on tasks beyond the scope of my academic curriculum, broadening my practical understanding of the field.

PROFESSIONAL ACHIEVEMENTS

Selections

- SHIBAURA University Best Diploma In Architecture 2024
